

Stenhøj Mascot 1.30 & 1.32

2-post electro-mechanical lifts

Mascot lifts are especially suitable for all kinds of repairs that require free access to underbody and wheels. The Mascot lifts are available with 3.0 and 3.2 t lifting capacities.

Features:

Top safety

- nut breakage system
- chain breakage system
- obstruction system
- automatic arm lock system

Elegant control box

- with dead-man controls and separate main switch.

Arms can be parallel-parked

- advantage when having to lift vehicles with very short wheel base
- easy and quick positioning of arms to lifting points of vehicle.

Lifting height

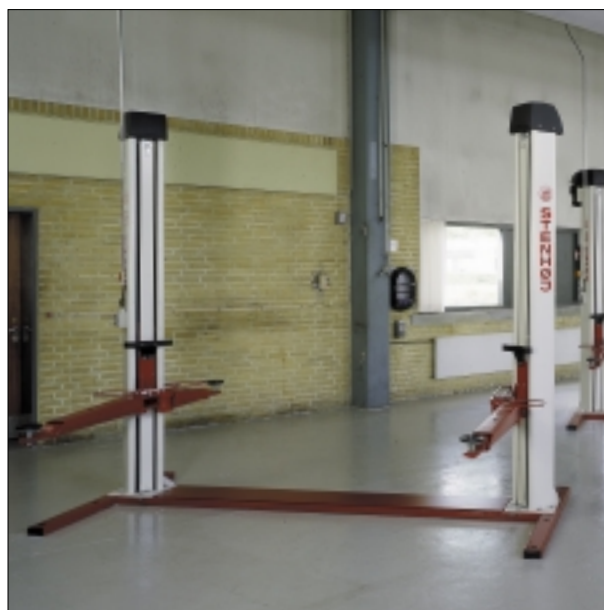

- S-models: 2050 mm
- C-models: 2240 mm

Stenhøj Mascot 1.30 & 1.32

Suitable for repair jobs that require free access to underbody and wheels.

Asymmetric design and angle-set posts allow car doors to be opened freely.

S = screw pad

C = combi pad

F = flex pad
Delivery of a F-version includes besides the standard flex pads an extra set of 190 mm flex pads.

CF = combiflex pad
Delivery of a CF-version includes besides the standard combiflex pads an extra set of 260 mm flex pads.

Long life construction

- the lowest operation and maintenance costs on the market.

Reliable and easy to operate

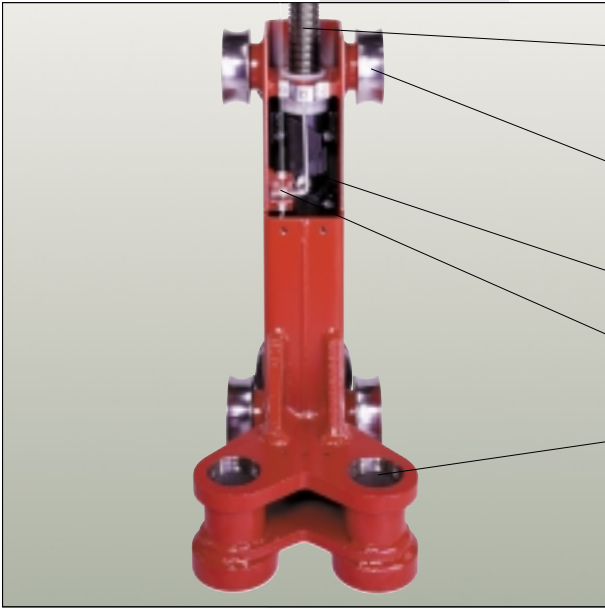

- adapted to the mechanic's requirements.

Very low minimum height

- only 105 mm on S-models.

Mascot

- is rated according to BS AU 161.
- Sturdy and dependable.
- Quick, easy installation and very little maintenance.

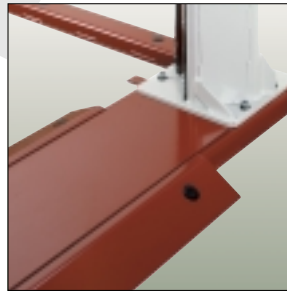

Quality to the last detail

- cold-rolled, centred spindle with long long life - quadrupled compared to current constructions.
- 6 large guiding wheels in lubrication-free needle bearings.
- the most durable nut set on the market.
- obstruction system.
- internal automatic arm locking device.

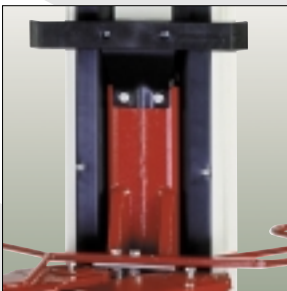

Internal carriage - good load distribution on nut and spindle.

Internal arm locking system that is automatically released in bottom position. Stable axle construction prevents deflection.

Auxiliary ramps for base frames- to be ordered separately.

Rubber covers for posts - to be ordered separately.

A large program of various pads - among these flex pads in different heights.
